

Disney's Yacht and Beach Club Resort, Sept 30-Oct 3, 2009

CALL FOR POSTERS

Important Dates

Poster submissions	June 25th 2009 (23:59 PST)
Notification of acceptance	July 20, 2009
Camera-ready deadline	August 1, 2009

The Posters category provides researchers with an opportunity to present their bleeding-edge work in an interactive fashion in front of an expert audience, without impacting the possibility of publishing as a full paper at a later date. We encourage the submission of preliminary or exploratory work, smaller projects or results not suitable for a full paper, and any other research that would excite discussion and benefit from this open forum.

Poster submissions should include an extended abstract of no longer than 2 pages, including all figures and references. Please download and use the [required templates](http://www.ubicomp.org/ubicomp2009/templates.shtml) (<http://www.ubicomp.org/ubicomp2009/templates.shtml>) to prepare your submission. Submissions may also include an optional single page describing or illustrating the proposed poster. This page should convey to reviewers visual aspects of the poster that may not be captured in the abstract, such as a key graphic to be used in the poster. This supplemental page is for review purposes only and will not be published. Posters submissions should be submitted electronically in PDF through PCS system. Posters submissions should not be anonymized.

Accepted Posters will be presented in three forms: as a poster at the conference poster reception, at the "1-minute madness" session preceding the reception, and as an extended abstract distributed to the attendees. The posters will be given a 30" by 40" stand at the conference poster reception, allowing all attendees to get informed about your work in person. Note that accepted submissions will be published in a Conference Supplement that will be distributed to attendees at the conference; they will not be incorporated into the main UbiComp 2009 Conference Proceedings.

UbiComp 2009 Posters Co-Chairs

Hani Hagra, University of Essex, UK
Kristof Van Laerhoven, TU Darmstadt, Germany
